

■3F Family Zone

Collaboration with the Eight Park Café popular with parents and children

The Family Zone is designed by the popular café for parents and children, "Eight Park," with the theme of a circus. The zone is dotted with photo spots where children and family members can take fun photos where they pose as members of a circus troupe.

At the center of the zone is a play area covered by a circus top. A range of children's shops provide a fun café and shopping experience for parents around the playing children.

3F Family Zone
