Takes into account factors such as business results for the fiscal year (operating income and Profit attributable to owners of parent) under review, ESG initiatives, shareholder returns (dividends and share buyback results), progress on the Group's long-term vision

The Definition and reduction policy of Strategic shareholdings

- We own stocks considered effective in management strategy from a medium- to long- term perspective to improve the Group's corporate value by comprehensively taking into account business strategy, the relationships with clients and other factors as Strategic shareholdings.
- We review our Strategic shareholdings on an ongoing basis with a view to reduce our holdings.
We assess the rationale for owning the stocks based on a quantitative evaluation and our relationship with the issuer.
- Reduce current holdings by 50% over the three-year period to FY2026. Continue to actively reduce strategic shareholdings from FY2026 onward.

The standard for "Investment stocks held for pure investment purposes" and the stock to be reclassified

- The reason for setting standard of "Investment stocks held for pure investment purposes"
 - ・In our business model, in addition to investing directly in real estate and benefiting from the increased value of real estate, we may also invest in businesses in the form of equity capital and benefit from the increase in value of the shares.
 - ・We had classified such equity capital as "Strategic shareholdings", but these investments are considered to be in our core business same as investments in real estate, so it is suitable to classify them differently from strategic shareholdings.
 - ・We have reorganized the classification of investment stocks based on our actual business model, and set the standard for "Investment stocks held for pure investment purposes"

Classification	Investment stocks held for pure investment purposes	Investment stocks held for purposes other than pure investment purposes (Strategic shareholdings, No changed from before)
Standard	Stocks, as part of business investments, held for the purposes of benefiting from medium to long term increase in share value etc.	Stocks held for purposes other than those listed on the left *Stocks considered effective in management strategy from a medium- to long- term perspective to improve the our Group's corporate value by comprehensively taking into account business strategy, the relationships with clients and other factors, etc.

- Main stock to be classified as "Investment stocks held for pure investment purposes."

Stock name	Oriental Land Co., Ltd.
The reason for classified	1. Mitsui Fudosan was involved in the establishment of the Oriental Land Co., Ltd., in 1960. We invested in the form of equity capital for the purpose of developing urban resorts and implementing an entertainment business. 2. This investment was made as part of our core business, real estate investments 3. We hold these shares for the purpose of benefiting from the medium to long term increase in share value etc.

- Sell at the right time

Reflecting our track record to date, we will continue to take a flexible and sustainable approach to selling over time, allocating proceeds to invest for future growth while also taking the share price into account.
