The Officer Compensation system will be revised for directors and corporate auditors to encourage their contribution to the realization of the Group's Long-term Vision, " & INNOVATION 2030." (From FY2025)

- **Key Points of the Revision**

- **Strengthen the linkage** of performance-based compensation with the KPIs of the Group's long-term vision.
 - To further enhance the operability of the stock compensation system, **introduce Restricted Stock Units (RSU)** and set limits for RS and RSU within the maximum limit currently approved for Restricted Stock (RS).
- *RSUs are calculated as one unit per share, and monetary compensation will be provided based on the number of RSUs held at the time of retirement.

- **Basic Policy on the Officer Compensation system**

Strong motivation for short, medium, and long-term corporate value enhancement in a bid to realize of the Group's long-term vision	The sharing of further value with shareholders	A competitive levels of recruitment and the retention of human resources	An objective and transparent compensation system
--	--	--	--

- **Method of resolution regarding directors' compensation** (unchanged)

: Matters related to directors' compensation are referred to the Compensation Advisory Committee, chaired by an outside director, and decided by the Board of Directors.

● **Key Revisions (Target: Internal Directors)** For details, please refer to our news release dated March 27, 2025 : <https://www.mitsuibufudosan.co.jp/english/corporate/news/2025/0327/download/20250327.pdf>

① In the compensation system, **RSU have been added to the payment method for “stock compensation,”** which previously consisted only of RS. **In conjunction with this, upper limits for RS and RSU are set within the range of the number of shares and monetary compensation claims approved as RS.**

Types of Compensation	Fixed	Performance-Based		
	Basic Compensation	Bonuses	Stock Compensation	
Payment Method	Monetary	Monetary	Stocks (Restricted Stock)	Monetary (Restricted Stock Units)

②Set target compensation composition ratios by position. (The composition ratios for bonuses and stock compensation are also disclosed.)

③ In calculating the payment levels for "bonuses" and "stock compensation," **KPIs aligned with the Group's long-term vision are set**, and the calculation formulas are disclosed. (Previously, they were not disclosed.)

							(Individual evaluation results payment ratio (95 - 105%))

Stock Compensation (RS : RSU=75:25)

$$\text{Number of allotted by individual} = \text{Standard amount by officer position} \times \left(\text{EPS payment ratio (0 - 150\%)} \times 50\% + \text{ROE payment ratio (0 - 150\%)} \times 50\% \right) \times \text{Payment ratio based on KPI evaluation (90 - 110\%)}$$

The Definition and reduction policy of Strategic shareholdings

- We own stocks considered effective in management strategy from a medium- to long- term perspective to improve the Group's corporate value by comprehensively taking into account business strategy, the relationships with clients and other factors as Strategic shareholdings.
- We review our Strategic shareholdings on an ongoing basis with a view to reduce our holdings. We assess the rationale for owning the stocks based on a quantitative evaluation and our relationship with the issuer.
- We have a policy to reduce strategic share holdings by 50% from fiscal year 2024 until fiscal year 2026 and continues to actively promote reduction thereafter.

Sale results (Non-consolidated) Strategic shareholdings +Investment stocks held for pure investment purposes

	FY2019	FY2020	FY2021	FY2022	FY2023	FY2024	FY2025

Sales amount (Billions of yen)	20.3	45.9	50.7	46.5	59.9	75.9	60.8

The standard for "Investment stocks held for pure investment purposes" and the stock to be reclassified

- The reason for setting standard of "Investment stocks held for pure investment purposes"
 - ・In our business model, in addition to investing directly in real estate and benefiting from the increased value of real estate, we may also invest in businesses in the form of equity capital and benefit from the increase in value of the shares.
 - ・We had classified such equity capital as "Strategic shareholdings", but these investments are considered to be in our core business same as investments in real estate, so it is suitable to classify them differently from strategic shareholdings.
 - ・We have reorganized the classification of investment stocks based on our actual business model, and set the standard for "Investment stocks held for pure investment purposes"

Classification	Investment stocks held for pure investment purposes	Investment stocks held for purposes other than pure investment purposes (Strategic shareholdings, No changed from before)
Standard	Stocks, as part of business investments, held for the purposes of benefiting from medium to long term increase in share value etc.	Stocks held for purposes other than those listed on the left *Stocks considered effective in management strategy from a medium- to long- term perspective to improve the Group's corporate value by comprehensively taking into account business strategy, the relationships with clients and other factors, etc.

- Main stock to be classified as "Investment stocks held for pure investment purposes."

Stock name	Oriental Land Co., Ltd.
The reason for classified	1. Mitsui Fudosan was involved in the establishment of the Oriental Land Co., Ltd., in 1960. We invested in the form of equity capital for the purpose of developing urban resorts and implementing an entertainment business. 2. This investment was made as part of our core business, real estate investments 3. We hold these shares for the purpose of benefiting from the medium to long term increase in share value etc.

- Sell at the right time

Reflecting our track record to date, we will continue to take a flexible and sustainable approach to selling over time, allocating proceeds to invest for future growth while also taking the share price into account.
